Eastside Cannery Mother's Day Treat for Mom and Daughter Team Who Help Traumatized Teen Moms and Babies

Mother and daughter team who help abused, neglected and homeless teen moms in foster care treated to champagne brunch at Eastside Cannery

What

This Mother's Day, Eastside Cannery will treat a special female trio to a Mother's Day Champagne Brunch at the top of its building, the One-Six Sky Lounge, overlooking the Valley. Eastside Cannery wanted to show its support to mothers in Southern Nevada, especially those making a difference in the lives of others.

The trio is comprised of Irene Lovelace and her two adult daughters Alana Dowling and Taryn Smith. Irene and Alana are a mother/daughter team that run the Pregnant and Parenting Teen Program at St. Jude's Ranch for Children. As "House Parents" they teach abused, neglected and homeless teen moms life skills and how to care for their child. And Taryn is the Clinical Director at St. Jude's Ranch.

The mother daughter team will enjoy brunch, champagne, a view of the city, and some well-deserved time off and appreciation.
