

## **Cannery Casino Resorts Breaks Ground on Site of Eastside Cannery Casino & Hotel**

### **Eastside Cannery Planned to Open Late Summer 2008**

LAS VEGAS – April 30, 2007 – Cannery Casino Resorts broke ground on its Eastside Cannery Casino & Hotel today at the Nevada Palace Casino & Hotel site on Boulder Highway and Harmon Avenue. The groundbreaking marks the first stage of construction of the Eastside Cannery Casino & Hotel and Cannery Casino Resorts continued expansion in the Las Vegas market.

“Eastside Cannery is an exceptional addition to Cannery Casino Resorts,” said company co-founder Bill Wortman. “It is sure to set the standard for casinos catering to local Las Vegans. We feel the Eastside Cannery will be a great asset to the Boulder Highway gaming market and we look forward to building this project and for it to come online.”

The new Eastside Cannery Casino & Hotel will be the latest addition to the Cannery Casino Resorts family and is projected to have 65,000 square feet of casino space that will house over 2,000 slot machines, 26 table games, a 400-seat bingo hall, a live keno lounge, a first-class poker room and a top-of-the-line Race & Sports Book.

In addition to the casino, the Eastside Cannery Casino & Hotel will have various amenities that are sure to draw locals and tourists to the property. There will be 307 hotel rooms, five restaurants, including one atop the top level of the 16 story hotel tower, three bars, an upscale live entertainment lounge, resort spa, Jacuzzi and a half-acre pool area complete with cabanas. For meeting planners, the Eastside Cannery will have 20,000 square feet of ballroom and meeting space to service a variety of meeting and convention needs.

Cannery Casino Resorts will continue its long-time relationship with Klai Juba Architects to create Eastside Cannery. The design draws its inspiration from buildings of the industrial age of the early 20<sup>th</sup> Century. The most prominent feature to the property will be a bronze hotel tower that will have heavy steel structural and decorative elements, which will be topped off by a saw tooth roofline reminiscent of buildings of that era. There will be an abundance of visual references to the burgeoning industrial era with the use of brick and steel in various aspects along with cross-braced steel facades and heavy steel open trusses. Staying consistent with the theme of the Cannery Casino & Hotel in North Las Vegas, there will be colorful murals on the walls depicting building amenities in a light-hearted and nostalgic way.

Cannery Casino Resorts, LLC owns and operates the Cannery Casino & Hotel in North Las Vegas, at the corner of Craig and Losee roads as well as operates the Rampart Casino at the Resort at Summerlin which is located within the JW Marriott Resort.
